EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Justin Oliver on 8/6/04.

The application has been amended as follows:

Cancel claims 5-17.

Allowable Subject Matter

Claims 1-4 and 18-24 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a grating interference encoder having a scale with a diffraction grating for generating two diffracted light beams having different orders, and an annular grating for deflecting the two diffracted light beams having the different orders generated from the diffraction grating to cause the deflected light beams to be re-projected onto said diffraction grating as claimed in independent claims 1, 18 and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
